“Anyone can be an officer but to be a good officer you need to care about the student experience and not be afraid to fight for what you think is right. So if you have confidence, some good ideas in your manifesto and are solution focussed about how we could improve the student experience then go for it. As a side note, be prepared for drunk first years to always talk to you on the bus if you win.”

— **Callie Edwards (SU President Falmouth 2018-19 and 2019-20)**

Introduction

Our vision is to create a world class student experience and to help achieve our mission we aim to have a positive impact on every members' personal student journey. We are proud to be student led and focussed upon our members.

Although we're funded by the University of Exeter and Falmouth University, we're an autonomous organisation. This ensures that we remain entirely focused on our students with one purpose in mind: to make student life better for you!

Like all Students' Unions in the UK, we're a registered charity (1145405). This means that we're not-for-profit: any income we gain goes straight back into providing services for you as members. We're governed by charity law, which has some implications on how we can spend our money - making sure it's spent on our membership (that's all of you!), for example.

Students are at the heart of everything that we do. Our Presidents represent students views, opinions and experiences regarding students' lives to decision makers operating at every level, helping to shape the wider student experience and we enjoy positive collaborative relationships with both Universities. Students lead our Union Council and Forums, which determine our priorities and campaigns. Students also make up the majority of our Trustee Board, which is legally responsible for our staff, finances, risk management and reputation. Students also have the power to shape what the Union does through our Annual Student Members' Meetings and referenda. So this really does show how you, our students and members, are the beating heart of the organisation.

We are proud of that range of opportunities and support provided to students by their SU, we have an exciting range of student led societies, sports clubs, volunteering opportunities and provide professional independent specialist advice, as well as chances to be politically active. We also help students to organise a wide range of events and activities specifically for their fellow students. And that's just the tip of the iceberg, not to brag of course...

We aim to ensure that every student has the highest quality of education and best student experience possible during their time studying in Cornwall and beyond. And a key part of achieving this, is having full-time elected Presidents to champion this work. Our annual President Elections provide all student members the opportunity to elect our next leaders and this could be you!

You can nominate yourself for one of the following positions:

- SU President Falmouth
