

The Falmouth and Exeter Students' Union

Rep Online System (ROS)

"ROS is our brand spanking new Rep Online System, which collects all students' feedback in one place.

It's where Reps, and students, can anonymously feed back about their whole university experience- everything from catering, to how your work is assessed.

It lets the Universities know what works well, and what doesn't.

And you can also suggest completely new ideas. Your feedback goes straight to the people who need to know, so action can be taken quickly. Your voice can make a difference.

Talk to ROS."
