

Community Chair Report

Term 1 2017 (November & December)

What I've done

The work with the Community Committee in this first term has been initial but completely necessary. We as student met at the end of this term to discuss on ideas on how to showcase student impact in the community, what should be expected of students and how to connect with the widening Cornish area, which went really well and we will be looking to translate these ideas into plans in the new year.

What I'm doing

In regards to the student skills days, I've shifted focus from the Stannary only and have attempted initial discussions with FX Plus to see if this is an event that they would be keen to get involved with. If not, then I will continue outwards to partners in the Falmouth and Penryn area. I will also be looking into the accommodation team to see what impact I can have as Community Chair to help students be aware of what is available to them when it comes to house hunting, such as the student pad website to see if we can improve any aspects of it.

Other

With initial mentions to Jamal FXU Student Experience. The placement of new bike racks outside the Compass is a valuable addition to the campus. This was after noticing the bike racks already installed were full and led to students leaving their bikes locked to other features, which didn't look the greatest. I will discuss with FXU Student Experience how we can showcase this to students and see if this encourages more students to bring their bikes to campus.
