

Mature Student Officer REPORT

Term 1 2017 (November & December)

What I've done

I have spoken to committee members and paying members of the Student Plus society to target areas of interest/improvement. A pre-written e-mail is ready to be sent out to all mature students at the start of the second term, hopefully to engage in providing further feedback of areas of concern. I have also attended a meeting with FXU and Student Plus to discuss the future of the society and what it aims to achieveably provide to its paying members. Alongside this I have also attended a Leadership Team meeting and Level 1 FXU training.

What I'm doing

Developing initial ideas and formulating plans of action ie a potential mature student focused newsletter and welcome pack (or link). Liaising with Student Plus over the winter break to maintain communication and motivation amongst committee members. Level 1 FXU training has enabled me to consider different routes, forms of communication and feedback outlets which I intend to put into practice. The remainder of the month will be used to finalise ideas to put forward and ways of reaching not just Penryn Campus but Falmouth and Truro as well.

Other

I will be away on a university field trip until January 22nd 2018, but will be contactable by e-mail.
